PROFILE

Dedicated Front-End Engineer with hands-on experience in React, JavaScript, Power BI, and modern web development practices. Skilled in problem-solving, UI design, and data visualization. Experienced with frameworks like Ant Design, and adept at collaborating in agile teams to deliver high-quality solutions.

WORK EXPERIENCE

Trainee Software Engineer, Goa Electronics Ltd., Panaji — Jun 2023 - Present

- Designing and implementing software solutions, gaining hands-on experience in full-stack development and deployment.
- Developed Call Center Management (React.js) for managing calls, customer support, and communication workflows.
- Contributed to GelJira, an internal tool for ticketing, task management, leave requests, and attendance tracking, improving operational efficiency.
- Built Bhumija (React.js) for ore management and tripsheet generation with modules for tracking, reporting, and workflow automation.
- Created CM Dashboard in Power BI using complex DAX queries and database integration to monitor public service schemes for better visibility and decision-making.

Associate Software Engineer, Coditas Solutions LLP, Pune — Sept 2022 - Dec 2022

- Learned Node.js and JavaScript through self-study and practical projects.
- Designed 'Task Management System', enabling task tracking through CRUD APIs with backend data management.
- Built dynamic REST APIs using Node.js and Express.js.
- Tested and validated APIs using Postman.

Machine Learning Intern, Cloud Counselage Pvt, Ltd — Aug 2021 - Sep 2021

- Developed a Movie Recommendation Model using item-based collaborative filtering, integrating multiple machine learning techniques for improved suggestions.

Data Science Intern, Cloud Counselage Pvt, Ltd — Dec 2020 - Jan 2021

- Designed an algorithm to clean datasets by applying and analyzing diverse data cleaning techniques.

TECHNICAL SKILLS/ LANGUAGES

- React js • JavaScript • HTML • CSS • Power BI • Git • Jira

EDUCATION

Bachelor of Engineering (B.E) in Computer, Don Bosco College of Engineering, Goa — Jul 2018 - Sept 2022

- Graduated with Distinction.
- Represented college in Table Tennis and Badminton.

HSSC, M.E.S Higher Secondary School, Vasco — Jun 2016 - Jun 2018

- Secured First Class in academics.
- State-level Table Tennis Tournament — Runners-up for two consecutive years.

SSC, St. Joseph's Institute, Vasco — Jun 2010 - Jun 2016

- Secured Distinction in academics.
- State-level Table Tennis Tournament — Runners-up for two consecutive years.

CORE COMPETENCIES

Organization | Time Management | Task Coordination | Communication | Teamwork | Problem-Solving | Adaptability | Learning Agility | Documentation

---

PROJECTS

Personal Portfoliio

- Built a personal portfolio using React.js, Vite.js, and Tailwind CSS to showcase projects, skills, and achievements.

Covid Health Passport Using Blockchain

- Developed a secure Covid-19 health data storage system using Hyperledger Fabric, ensuring immutability and privacy.
- Integrated Aadhaar-based key storage for user identity verification.

Task Management System

- Created REST APIs (Node.js, Express.js, MongoDB) for task creation, retrieval, update, and deletion.
- Implemented MongoDB Compass for database management and Postman for API testing.

CERTIFICATIONS

- Next.js Web Development — Udemy
- The Ultimate React Course: React, Redux & More — Udemy
- The Modern JavaScript Bootcamp — Udemy

PUBLICATIONS

Digital Health Passport Using Blockchain

- Published research proposing a blockchain-based E-Health app for secure, decentralized, and verifiable Covid health data storage.
- Designed the system using Hyperledger Fabric, focusing on immutability, privacy, and counterfeit prevention.
- Integrated Aadhaar-based identity verification for secure access and data sovereignty.
- Highlighted the role of end-to-end encryption in ensuring trust, privacy, and integrity of healthcare records.
